

TURNING POINT ACADEMY PRESENTS THE SUMMER 2023 EDUCATORS' SUMMIT:

Teaching Students **How to Think** Not What to Think

June 15th-17th
Trinity International
University, Deerfield, IL

With information at our fingertips through Google, flawless papers created in seconds through OpenAI, and fake news and propaganda everywhere you turn, it is critical that we teach students HOW TO THINK, not simply what to think. But how do we do that? It is the approach we take to the subjects we teach and how we teach them. This summit will uncover the way of thinking that is unlocked through the study of various subjects and the diverse tools that are used to help students think like masters of those subjects. Educators of all subjects will walk away with renewed excitement for teaching students the HOW to think and the tools to do it.

The Summit will include keynote speakers, including Charlie Kirk, addressing the harm of indoctrination, the purpose of education and training on models of teaching that will encourage you and provide you with tools to help your students know HOW TO THINK, not what to think.
